RUNNING NODE.JS ON LIGHTSAIL

Peter Larsson-Green

Lecturer at Jönköping University
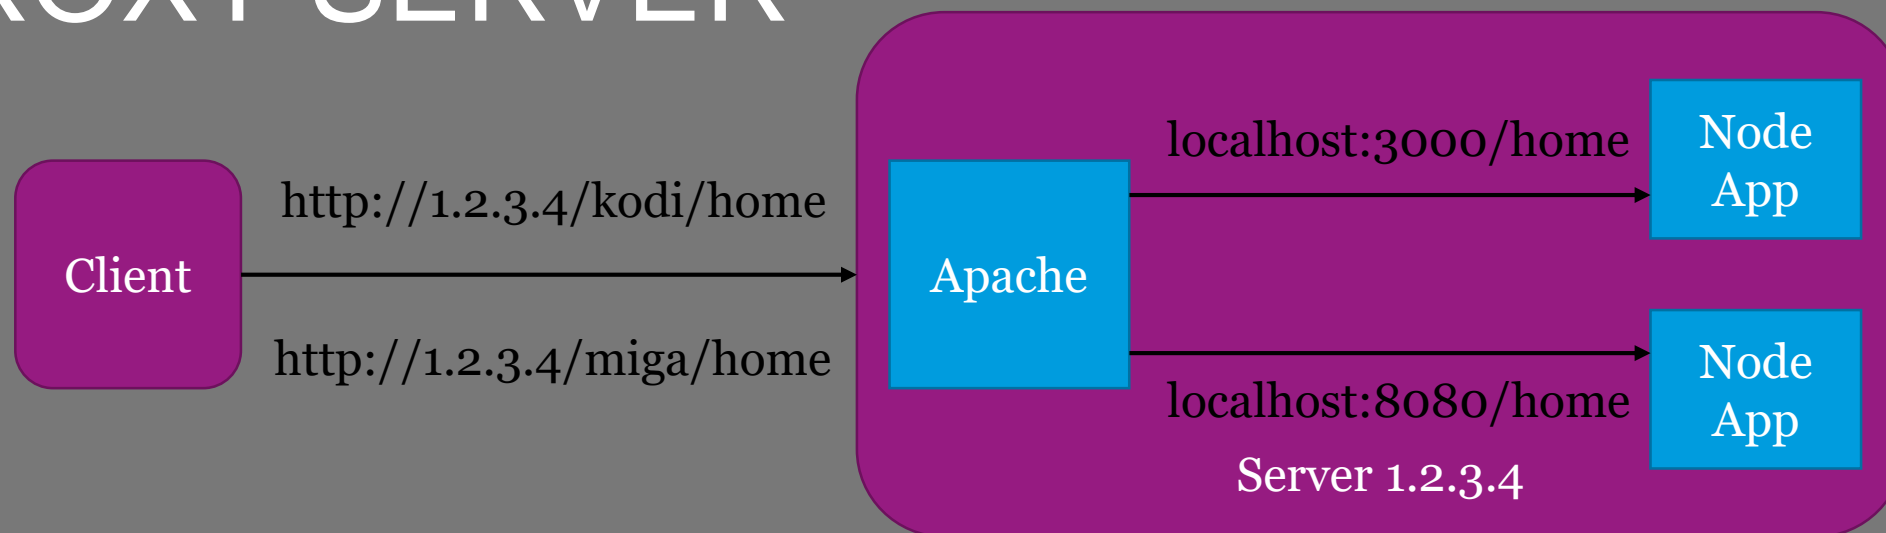

Autumn 2018

WHAT IS LIGHTSAIL?

One of Amazon's services we can use to run Node.js applications.

- https://aws.amazon.com/lightsail/

PROXY SERVER

```
ProxyPass /kodi http://127.0.0.1:3000
ProxyPassReverse /kodi http://127.0.0.1:3000
ProxyPass /miga http://127.0.0.1:8080
ProxyPassReverse /miga http://127.0.0.1:8080
```

/opt/bitnami/apache2/conf/bitnami/bitnami-apps-prefix.conf

```
sudo /opt/bitnami/ctlscript.sh restart apache
```

UPLOADING YOUR CODE

Have it in a git repository?

• Just clone it.

Otherwise:

• Use an SFTP client.
   • For example FileZilla.

DEMONSTRATION

Demonstration!
